

# MISS LI WOLVES

## SPACESHIP

Have you heard the news today  
Just like a fix  
She's floating through his veins  
Have you heard the news today  
Like a tumour  
She's spread to his brain

Living isn't easy  
She's gonna mess this up completely  
And no one can hold you down

We can build a spaceship  
And fly away  
And we can start all over  
Somewhere else  
We can build a spaceship  
Come with me  
And we can start all over  
Close your eyes and follow me

We can build a spaceship  
And fly away  
And we can start all over  
Somewhere else  
We can build a spaceship  
Come with me  
And if Earth is calling  
Close your eyes and let it be

So have you heard the news today

If you listen closely  
You'll hear his heart break  
'Cos in this psycho world of Eden  
This is the version  
Where she is the snake

Living isn't easy  
She's gonna mess things up completely  
And no one can hold you down

We can build a spaceship  
And fly away  
And we can start all over  
Somewhere else  
We can build a spaceship  
Come with me  
And we can start all over  
Close your eyes and follow me

We can build a spaceship  
And fly away  
And we can start all over  
Somewhere else  
We can build a spaceship  
Come with me  
And if Earth is calling  
Close your eyes and let it be

Friends are gone  
And family too  
He turned his back  
On everything he knew

He dug for gold  
And found a grave  
He asked for freedom  
And became a slave  
While she keeps on singing  
And no one can hold you down

We can build a spaceship  
And fly away  
And we can start all over  
Somewhere else  
We can build a spaceship  
Come with me  
And we can start all over  
Close your eyes and follow me

We can build a spaceship  
And fly away  
And we can start all over  
Somewhere else  
We can build a spaceship  
Come with me  
And if Earth is calling  
Close your eyes and let it be

## SUGAR COMA

You're just a little bit too good for me  
Aren't you baby  
That's why you don't turn around

I keep talking but  
You keep saying maybe  
I know I recognize the sound

When that narcissistic piece  
Of you crumbles  
A tiny little piece of us dies

So don't lie to me I'll be faithful

I hate you baby  
I hate you with a passion  
But you're my gasoline  
You're my medicine  
But you are mean

I hate you baby  
But you fill me with compassion  
You're my adrenaline  
You're my morphine  
But you are mean

You're just a little bit too bright for me  
Aren't you honey  
That's why you don't come around

So I'm dumb and you are the smart one  
You know this knowledge  
Makes me numb

You are my Coca-Cola  
I am in sugar coma

And you know I need you to come  
'Cos this addiction makes me crazy

I hate you baby  
I hate you with a passion  
But you're my gasoline  
You're my medicine  
But you are mean

I hate you baby  
But you fill me with compassion  
You're my adrenaline  
You're my morphine  
But you are mean

I am under your spell  
You are playing me well  
You are my ball and chain

I hate you baby  
I hate you with a passion  
But you're my gasoline  
You're my medicine  
But you are mean

I hate you baby  
But you fill me with compassion  
You're my adrenaline  
You're my morphine  
But you are mean

#### TRANSFORMER

I can be your coffee  
On a Monday morning  
I can be a joke  
When work is boring  
I can be your ale  
I can be your ginger  
I can be a cigarette  
And a warning finger

I can be good  
I can be bad  
I can be lovely  
I can be sad  
I can be a sinner  
I can be a saint  
Just tell me  
How you want it  
I will understand  
I'm a transformer  
I'm a transformer  
Just tell me how you want me  
So I can make you stay  
I'm a transformer  
I can change my way

I can be your plaster  
When your heart is bleeding  
I can be your comfort  
When you're not succeeding

I can be your candy  
On a Friday evening  
I can be your valium  
When you're having trouble sleeping

I can be good  
I can be bad  
I can be lovely  
I can be sad  
I can be a sinner  
I can be a saint  
Just tell me  
How you want it  
I will understand  
I'm a transformer  
I'm a transformer  
So tell me how you want me  
I can make you stay  
I'm a transformer  
I can change my way

I can be your woman  
I can be your man  
I can be your hero  
And your biggest fan  
And if you don't like me  
The way I am  
I'll just transform  
On your command

I can be good  
I can be bad

I can be lovely  
I can be sad  
I can be a sinner  
I can be a saint  
Just tell me how you want it  
I will understand  
I'm a transformer  
I'm a transformer  
So tell me how you want me  
I can make you stay  
I'm a transformer  
I can change my way

#### DANCING IN THE DARK

I'm dancing in the dark  
With this so called friend of mine  
He's hangin' round my back  
And refuse to leave my side

I'm going down  
I'm going down  
I'm going down

I'm going down  
I'm going down  
I'm going down

I'm dancing in the dark  
With his whispers in my ear  
We're just like Bonnie and Clyde

We're both partners in crime  
He is the dope I need to fall asleep

I'm going down  
I'm going down  
I'm going down

I'm going down  
I'm going down  
I'm going down

You ease my deepest sorrow  
When you're around  
There's no tomorrow  
I drink and I swallow  
Pass out

I'm going down  
I'm going down  
I'm going down

I'm going down  
I'm going down  
I'm going down

You ease my deepest sorrow  
So I drink and I swallow  
I'm down  
I'm down

I'm going down  
I'm going down

#### HAPPY BIRTHDAY

I bet you think you are  
The king of this town  
The way you wear  
Your crown  
I bet you think that  
I'm up for it all  
But now you have  
Gone too far

I know you think that  
You are superman  
And I'm supposed to be  
Your biggest fan  
Am I supposed to  
Be like Marilyn  
While you act  
Like Kennedy

Happy birthday  
Happy birthday  
I hope your day was okey  
While I am wiping up  
My tears off the floor  
You're blaming the alcohol

Do you think that I am  
Made of steel  
That I am just a toy  
And I don't feel  
Like every bullet's

Just falling off  
When the truth is  
I fall apart

Happy birthday  
Happy birthday  
I hope the cake was okey  
While I'm pickin up  
My heart off the floor  
You keep blaming the alcohol

#### BLACK WIDOW

Here she comes  
With the look of an angel  
Look out here she comes  
Be aware 'cos she is the Devil

Here she comes  
And she's so delightful  
But all that glitters isn't gold  
Be aware 'cos she will hypnotize you

Here she comes  
And she'll go  
She will call you and catch you  
And sing you her toxic song

She's got you wrapped  
Around her finger  
She's got you hooked up

In her spell  
Now you're down  
The path that lingers  
Between Heaven  
And the depths of Hell

She's got you wrapped  
Around her finger  
She's the master  
Of the puppet show  
She'll eat you  
For dinner  
That black widow  
Is here to take it all

Here she comes  
And she's so spiteful  
Watch out for her tongue  
A taste and she will paralyse you

Here she comes  
And she goes  
She will call you and catch you  
And sing you her toxic song

She's got you wrapped  
Around her finger  
She's got you hooked up  
In her spell  
Now you're down  
The path that lingers  
Between Heaven

And the depts of Hell

She's got you wrapped  
Around her finger  
She's the master  
Of the puppet show  
She'll eat you  
For dinner  
That black widow  
Is here to take it all

#### RUSSIAN ROULETTE

Life is a bullet  
It can hit you hard and fast  
Suddenly your life is a mess

Life is a knife and it can  
Cut deeper than broken glass  
You don't know how long pain will last

And now it's my turn  
I'm sitting in the waitingroom  
Hoping that it will go easy on me

Ah ah ah  
Life is like  
Russian roulette  
Ah ah ah  
You never know  
What you're gonna get

Ah ah ah  
Life is like  
Russian roulette  
Baam baam  
See what you get

I've fed the wolves and  
Watched out for the darkest seas  
But still it keeps raining on me

Been making deals  
With the devil and the holy three  
But we never seem to agree

And now it's my turn  
I'm sitting in the waitingroom  
Hoping that it will go easy on me

Ah ah ah  
Life is like  
Russian roulette  
Ah ah ah  
You never know  
What you're gonna get  
Ah ah ah  
Life is like  
Russian roulette  
Baam baam  
See what you get

#### THE ROOM

There is a room  
Where no one can hurt us

There is a room  
Where no one can get to us

And all the leaves are falling  
Outside

Let's go there now  
Let's go there now  
Let's go to where the sun  
Is shining on us  
Instead of our doubts  
Let's go there now

There is a place  
Where the wolves can't harm us

There is a place  
Where the darkness can't reach us

And all the leaves are falling  
Outside

Let's go there now  
Let's go there now  
Let's go to where the sun  
Is shining on us  
Instead of our doubts

Let's go there now

And all the leaves are falling  
Outside

Let's go there now  
Let's go there now  
Let's go to where the sun  
Is shining on us  
Instead of our doubts

Let's go there now  
Let's go there now  
Let's go to where the sun  
Is shining on us  
Instead of our clouds  
Let's go there now

And I'm letting go of ego  
I'm letting go of evil  
I'm letting go of sorrow  
Sadness of tomorrow  
I'll leave the fogs and shadows  
I'll leave it all behind  
I'm letting go I'm all yours  
I'm letting go

## 1. SPACESHIP

Miss Li: Vocals  
 Sonny Boy Gustafsson: Guitars,  
 Bass, Percussion, Synth, Piano  
 Gustav Nahlin: Drums  
 Malin-My Wall: Violin
