Produced by Jonathan Bree & Chelsea Nikkel  
Artwork & Design by Brad Fafejta

# Machines of Loving Grace

Even though we sometimes fight  
We both know we'll be alright  
Slumber parties late at night

Me & You

We are machines of loving grace  
So take my hand lets fly through space  
We can save the human race

Me & You

Through the darkness sparks of light  
Speeding asteroids hold on tight  
In our spaceship late at night

I Love You

Yulia

Yulia what do you see in him?  
Yulia what could you want from him?

You're the same age as me  
& theres nothing that I can see  
No unified theory  
That will convince me

That you are happy

Yulia what do you see in him?  
Painting lions on the back of a cookie tin  
Is it better to be different than to be better?

Yulia how can you be with him?  
You're the same age as me  
& theres nothing that I can see

No unified theory  
That will convince me

That you are happy

# Ice Reign

Royalty's not what it seems  
Folks can be cruel & be mean  
Waging battles, online wars  
It's all just a bit of a chore  
Listen to what I now say  
For bad behaviour you'll pay  
So start being civil  
Courteous too  
Or it will be off  
With your head

# Monkey Eats Bananas

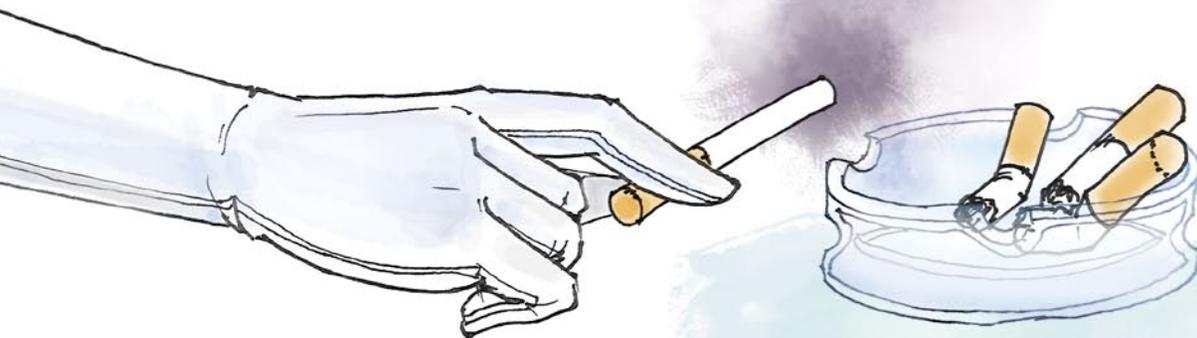

## Caution Repetitive

I heard you got a car & you're gonna go far  
You probably should get out but theres not much going on  
A man as smart as you could be set to be a star  
You're a star amongst a few but we wonder who you are  
You shoot them to the floor with a whistle & a laugh  
They'll never get your jokes 'cos you're smarter than they are  
You spend your time online being somewhat of a star  
You're a star amongst a few but we wonder who you are  
People call you mean 'cos you tease them with the truth  
Twisted for a laugh by a wit as sharp as you  
Wasting all your time playing farces with the few  
You could be something great  
But something great is nothing new

## Cigarette Duet

It's just a cigarette & it cannot be that bad  
Honey don't you love me &  
You know it makes me sad  
It's just a cigarette like you always used to do  
I was different then  
I dont need them to be cool  
It's just a cigarette and it harms your pretty lungs  
Well it's only twice a week  
So theres not much of a chance  
It's just a cigarette it will soon be only ten  
Honey cant you trust me  
When I want to stop I can  
It's just a cigarette &  
It's just a Marlborough Light  
Maybe but is it worth it if we fight  
It's just a cigarette that I got from Jamie-Lee  
She's gonna get a smack and I'm gonna give you three  
It's just a cigarette and I only did it once  
Its only twice a week so theres not much of a chance  
Its just a cigarette & I'm sorry that I did it  
Honey cant you trust me when I want to stop I can

# Too Fast To Live

Please don't drink so much  
Drinking is bad for your heart &  
Your organs they all fell down  
Through the hole  
That it's made in your gut

Please don't drink so much  
I worry that you will die  
Too fast to live  
Is the stupidest saying  
I've heard in my life

Please don't drink so much  
Your mother would be sad  
She's a nice lady  
So show you deserve her  
Or you'll only end up like  
Your dad

Life in New Zealand is pleasant enough  
When we turn 22 it's not violent enough  
We want fast pace & fast trains &  
Much bigger clubs  
We want money & kudos &  
Much stronger drugs  
We skimp we save we go overseas  
We pimp we slave so we get what we need  
When we get there we try very hard to believe  
That it's better  
When we go overseas to a much bigger place  
We're still doing the same things  
But not with much space  
On the subways and airplanes  
There's no friendly faces  
We're working so hard  
That the history is wasted  
We skimp we save we go overseas  
We leave those behind who give us what we need  
In two years we return with a sigh of relief  
But we say it was better

We will be  
Much further along you see  
You can fight  
But it will not save your life  
We can change  
Our bodies rearrange  
Run and hide  
But it will not save your life

We will be  
Much further along you see  
You will try  
But you will not save your life  
You can't change  
Your bodies stay the same  
You will die  
And you cannot save your life

Goodnight little robot child  
Close your eyes go to sleep  
Tight little robot child  
Starmans waiting for  
You've been running around with your robot friends  
And your battery's feeling so low  
Tomorrows gonna be be another big day  
Better catch yourself forty volts

Goodnight  
I love you

## ***Lil' Golden Book***
